Important Reminders:

- **Attend a Face-to-Face Session:** Before starting your virtual classes, please attend an in-person session to familiarise yourself with the safety aspects of the reformer. Each reformer is different, and we want to ensure you feel confident and safe using ours.
- **Booking Requirement:** Please remember to book into your virtual reformer classes. Members who book in advance will have priority access to the reformer machines.
- **Studio Access:** When entering and exiting the studio, please ensure that the door is securely closed behind you.
- **Duress Alarm:** If you are one of the first two members in the class, kindly pick up a duress alarm as a safety measure. The alarms are located on a hook above the fire extinguisher to the left of the room.
- **Equipment Care:** After each session, please clean your reformer and all equipment used. Ensure all springs are placed back, and that boxes, circles, and balls are returned to the right-hand side of your reformer. Weights should be neatly stored under the reformer at the end of the session.
- **Pregnancy or Injuries:** If you are pregnant or dealing with an injury that may affect your class, we strongly encourage you to attend a face-to-face session. This helps prevent any strain or injury and ensures you can train safely, as our virtual classes are not designed to support these specific needs.
